

## BLACK WINS GOVERNOR'S RACE

Carried Every District in the State But Two, His Majority Will Possibly Reach 17,000

Governor James D. Black won the Democratic nomination for Governor Saturday by a large majority and it is quite likely his majority will reach 17,000. He carried every district in the State but two, the fifth and sixth which were carried by Judge J. D. Carroll. A very light vote was polled throughout the entire State and comparatively little interest was

GOV. JAMES D. BLACK

manifested. Montgomery county gave Black a majority of 343. The primary was very quiet in this county and no disorder of any kind was reported. In the race for Chief of Police J. C. Tipton, the present incumbent, was returned the winner over his opponent, Thos. Scott, by a majority of 181. In the Fourth Ward Walter Mackie and John W. Jones were elected over J. Wells Wilkerson for Councilmen. In the various other State races the winners appear to be: Shanks for Lieutenant Governor, although Oldham is still claiming his election; Bosworth for Auditor; Cohen for Secretary of State; Daugherty for Attorney General; Foster for Superintendent of Public Instruction; Goodman for Clerk of the Court of Appeals, defeating our former fellow-townsmen, B. O'Connell; and Newman for Commissioner of Agriculture. On the Republican ticket Dawson was nominated for Attorney General and in the Railroad Commissioner's race in this district between Kash and Versole, the result is still in doubt, both of the candidates claiming their election.

### SPEEDERS ARRESTED

That the city officials are in earnest in their efforts to have the traffic laws obeyed, is evidenced by the fact, that since the accident of Sunday, police have been stationed at the intersections of the principal streets here, and have arrested the violators of these laws. In most instances the "speeders" were dismissed with a reprimand, it being their first offense, but the second offense generally meets with a stiff fine. A number of arrests were made on account of drivers "cutting" the corners and ignoring the "Keep to the Right" signs, that are conspicuously displayed on the street intersections here.

### ENGAGEMENT OF INTEREST

Mrs. Jennie Robinson authorizes us to announce the engagement of her daughter, Miss Emily Dean, to Mr. Harry Reagan, of Danville, Va., the ceremony to take place in the late summer. Owing to the prominence and popularity of the contracting parties the above announcement will be of much interest in social circles throughout the Bluegrass section.

### EO. HON HERE

Ed. Hon, formerly a prominent business man of this city arrived here yesterday for a short visit to relatives. Mr. Hon is located in Washington, D. C., and during the war was in the government service, but is now back in the meat business in the capital city. He is being given a warm welcome by his many old friends.

### TAKEN TO PHILADELPHIA

Mr. and Mrs. Harry Ringo left yesterday with their little son, Stoffer, for Philadelphia where he will be placed under the care of an eminent specialist in children's diseases. The child has not been well since an attack of the flu some months ago, and it is hoped he will soon be restored to health.

## THE AMERICAN LEGION

Formation of a local post of the American Legion, the new association of soldiers, sailors and marines will be taken in Mt. Sterling, on August 6th. of this week when an informal conference will be held between local veterans and representatives of the State organization, who are pushing the organization work in order that Kentucky's 100,000 former service men will be fully represented in the Legion before the State convention to be held October 3 and 4 in Louisville.

Early organization of a Mt. Sterling post is expected in order that representatives from this community not only will attend the State convention but will take part in electing delegates to the first great national convention, to begin November 11, American Legion Day, in Minneapolis.

The American Legion is a national "vigilance" organization, free from political and other unsavory influences, formed for the purpose of making the results achieved in France hold good in every town, city and State in the nation. It is endorsed by President Wilson and other Government and Military officials. It will seek to rid the country of the radical, the slacker and all influences not wholly 100 per cent American. Mr. Ulric J. Bell will represent the State organization at conference here.

### INTERRED HERE

The remains of I. B. S. Isted, who died in Tacoma, Washington, were cremated and the ashes sent to this city, where they were interred in the grave of his wife who was buried here a number of years ago. Mr. Isted was for a long time connected with the Standard Oil Co., and was a man of considerable wealth.

## BLACK TO OPEN FIGHT ON PRICES; CITES TRUST LAW

Now that the smoke of Saturday's battle of ballots has cleared, Gov. James D. Black will launch a vigorous campaign against the high cost of living. A commission will be appointed to investigate the cause of high prices and make recommendations as to what action should be taken to bring about lower prices of foods, clothing and shoes, he said. Kentucky has one of the most drastic anti-trust acts in force in any State in the Union, and Gov. Black announced that if any profiteers are found they will be prosecuted to the full extent of the law. "I am going to appoint a commission of prominent, level-headed Kentuckians from over the State to study the situation and devise a system by which we can get at the root of the evil and determine the best course to pursue in order to get desired results," he said. The high cost of living is the big problem of the American people today.

## MERCHANDISE SCARCE, PRICES SOARING

In an interview with a local merchant who has recently returned from New York, he reports market conditions as deplorable, stating that standard goods in many lines, especially silks, are exhausted and cannot be obtained at any price. Many of the large firms are running educational campaigns urging people to use cotton hosiery instead of silk. Prices are higher than were ever known and are daily growing higher with a unprecedented demand. This fall bids fair to see the highest prices ever known.

Be rewarded by meeting F. J. Ward, the popular tailor with The Walsh Co., this week. Low prices fine work. Call today.

### SELLS HOME

William Wells, sold to his sisters, Misses Pearl and Nannie Ponders, his home on the corner of High St. and Samuels avenue for \$9,000.00 cash. Mr. Wells bought the place less than a year ago from W. T. Fitzpatrick, for the price of \$6100.00. Real estate here is increasing in value and houses are in great demand both for purchase and for renting.

### DEED RECORDED

The deed conveying the home of Mr. and Mrs. Mary Anderson, of 1014 W. Swaffield, and Mrs. Ann Moss Deitz to Mrs. Mary Anderson has been recorded in the County Clerk's office.

## NEGRO CAPTURED

Rex Graham, alias John Thomas, who passed cold checks on a number of local merchants about ten days ago, was captured here Saturday afternoon by Chief Tipton. The negro was in the R. E. Punch haberdashery making a purchase, when arrested by the officer who had been watching him for some time. Graham at once, admitted that he was the man wanted and was placed in the jail.

He appeared in open court here Monday and waived the examining trial, being held under \$500 bond. In default of bail he was remanded to jail to await the action of the grand jury.

There will likely be ten or twelve indictments against him.

## REMARKABLE MAN

Dr. J. B. Spratt, of Camargo, aged 92 years, left today for a visit of several weeks to relatives and friends in Indiana, thence to Illinois and thence to Wisconsin. Few men at his advanced age would dare make a visit of this mileage alone, but the Dr. is hale and hearty and more active than many in the sixties.

During this protracted visit we are going to miss the doctor for verily he is a source of inspiration to those with whom he has mingled during the many years past.

## ACCEPTS POSITION

B. S. Robbins, of the county, has accepted a position as teacher of History and Latin in the Bridgeport Hl. township high school, and will leave September first to assume his duties.

F. J. Ward is located here for the week with The Walsh Co., taking orders for Jack Schaefer for fall suits and overcoats, delivery for fall. Call at Walsh's.

## LIBRARIAN RESIGNS

Mrs. W. A. Samuels, for many years Librarian of the Mt. Sterling Library, has resigned her position. Her resignation to go into effect September 1st. The board has elected Mrs. Marcia B. Hoffman to succeed her.

## HIGH COST OF LIVING BEING GIVEN ATTENTION

The committee of three—Hines, Leffingwell and Colver—appointed by Attorney General Palmer to devise a means to relieve the high cost of necessities, will have definite and constructive recommendations to report to the full conference at its forthcoming meeting. At this conference the Government's plan on the wheat situation is likely to be announced soon after conclusion of the hearing of Julius H. Barnes, head of the United States Wheat Corporation. The conference realizes that it has a difficult problem before it in the railroad question, as it realizes that trainmen, by striking, could nullify efforts of every other industry. A bitter attack on President Wilson and the Administration is expected from Republican members of the conference; and one Democratic Senator—Reed, Missouri—has announced that he intends to arraign in the Senate the policy of Herbert Hoover followed in dealing with the food situation. Grain and provisions dropped noticeably yesterday following the agitation against the high cost of living. Just what effect the meeting of the committee will have on the present exorbitant prices remains to be seen.

## WHY YOU CAN BELIEVE MOST ADVERTISEMENTS

You can believe the advertisements you read because the best business men know that truthful advertising pays best, says a bulletin from the Associated Advertising Clubs of the World, New York. The business man who lies in an advertisement is more than a knave—he is a fool in the bargain. We deal with people we trust, and we do not trust those who are untruthful. Buying from advertisers gives assurance of the best qualities for the money, declares the Bulletin, from the advertising association.

## LITTLE DAUGHTER ARRIVES

Mr. and Mrs. Ben P. Drake are receiving congratulations upon the arrival of a daughter at their home tonight. Both mother and child are reported to be doing nicely.

As we go to press the matter is being argued before the city council as to whether the price of telephone service shall remain as it was under Government control or whether it shall revert back to prices mentioned in the franchise under which the local company is doing business.

## COUNTY TO HAVE GARAGE

The Montgomery County Fiscal Court has purchased of I. F. Tabb for a consideration of \$7,000, his brick stable on Locust street which it is understood will be made into a garage for the storing of the county's trucks and other machinery.

## BELOVED LADY PASSES AWAY

Mrs. C. M. Ratliff Dies at Her Home in This City Tuesday Morning After Long Suffering

Mrs. C. M. Ratliff died at her home on Clay street in this city this morning at 7 o'clock, after a long illness of a complication of diseases. Her condition had been critical for the past several days and the end was not unexpected. Decended was 30 years of age, and had long been a consecrated member of the Christian church. She was a loving and adoring mother, devoted to her home and family, and willing at all times to make any sacrifice to add to their happiness. A woman of true Christian qualities, devoted to the work of her Master, she will be mourned by a host of friends and relatives. Mrs. Ratliff was a daughter of the late Van Thompson, of this county, and is survived by her husband, C. M. Ratliff, two children, Victor M. and Miss Carolyn Ratliff and one stepson, Alvin Ratliff. She is also survived by three sisters, Mrs. J. V. Groves, of this city; Mrs. J. Todd Smith, of Winchester; Mrs. Anna Whitman, of Louisville; two brothers, Geo. C. Thompson, of Paris and Frank P. Thompson, of Florida. In addition to these she is survived by several half sisters and brothers. Funeral services will be held at the grave in Macphelah cemetery Thursday morning at 10:30, conducted by pastor Rev. Clyde Darsie. To the sorrowing loved ones left to mourn the passing of this noble woman, we extend deepest sympathy, and trust that the exemplary life she lived may ever be an inspiration to them.

## COMPULSORY UNIVERSAL MILITARY TRAINING

War Department recommendation for a system of universal training of three months for all eligible youths in their nineteenth year was presented by Secretary Baker yesterday to the Senate and House military committees for their guidance in determining the permanent military policy of the nation.

The proposal is contained in a bill prepared by the general staff of the army at the Secretary's direction. In transmitting the bill, Secretary Baker in a letter said that General Pershing had not been consulted and the plan was tentative to that extent.

The department's bill calls for a regular army of 21 divisions and necessary auxiliary services, with a peace strength of 510,000 enlisted men and a war strength of 1,250,000. The reserves to fill up the divisions, to full strength would be provided through a modified form of the selective service act under which the national army was raised. For training purposes, only youths in their 19th year would be called to the colors for a three month period, to be attached to regular divisions for that time. It is estimated that this would provide an annual class of 600,000 men to be given intensive military instruction, stripped of all vocational or other educational features.

## 1920 **Model K-45**

### **Buick Five-Passenger Touring Car**

THE BUICK Model K-Six-45 is a very capable open car for five persons, designed to cover the multitude of uses to which such a car is put. It differs from the big seven-passenger model only in tonneau and chassis length, possessing the same degree of ruggedness, easy-flowing power and mechanical excellence.

The tonneau is even more liberally proportioned. The seat is full three-passenger capacity, set at a comfortable angle. The sides are upholstered clear to the doors with the same French pleated leather used on the cushions and seat backs. Each of the four doors is equipped with a side pocket for storing small parcels. The instrument board is illuminated by a dash lamp. Top and side curtains are made of high grade fabric, the curtains swinging open with the doors. Behind the front seat is a very convenient pocket for storing the side curtains when not in use.

#### **GOOD FINANCIAL CONDITION**

When the liquor licenses expired on the 31st of June the city of Louisville lost in revenues approximately a half million dollars. By agreement between the saloon keepers and the Sinking Fund Commissioner a license of \$30 per year will be imposed on soft drink stands. This, with the occupation law license, leaves the city still short \$400,000. Mayor Smith has formulated a plan by which this deficit will be cared for. His plans are not yet ready for the public. The City Water company has declared a dividend of \$190,000 and this places the city in a good financial condition.

#### **COLOSSAL, THIS STATEMENT**

According to the estimate of the Federal Director of Railways, a deficit of \$50,000,000 was incurred during the month of April. The total deficit for the past four months is \$250,000,000. At this rate of deficit, should the Government continue to operate the railroads for five years, it will take every dollar of money now in circulation in America, to pay the deficit. From a financial point of view, Government control, has proven a colossal failure. This Government control of railways demands the most serious consideration now.

#### **HOW TO ENCOURAGE BUILDING**

The New York Merchants' Association has recommended an exemption from Federal income taxes or mortgages placed for the construction of dwellings, and in doing so has announced the belief that prices and wages will remain at a permanent high level indefinitely, and that industry will be taxed to capacity in supplying demands for merchandise, and that a labor shortage is inevitable.

We are glad to see that the Merchants' Association has so closely followed the lead of the Manufacturers Record. Since the armistice was signed we have been warning our readers of the necessity of the "Build Now" campaign on the ground that prices and wages would continue high, and months ago we urged that mortgages for building of dwellings should be freed from income taxation in order to encourage

the investment of money in buildings.

The movement is a good one, and we are glad to see it so strongly commended by the Merchants' Association.—Manufacturers Record.

# KENTUCKY TO SPEND \$141,558 TO AID BETTER FARMING

## Montgomery Gets Her Part.

"How're you going to keep 'em down on the farm?" is a problem the public schools, under influence of the Smith-Hughes act of Congress, are sitting about to solve by teaching agriculture as a practical science, no less interesting than profitable. At the same time, home economics and industrial trades are being taught in the same way and teachers are being trained for vocational work. Kentucky will receive \$70,779.31 from the Federal government for this enterprise this year.

High schools already are teaching mathematics devoted to farm accounting, and the Federal income tax has brought farmer for the first time to a realization that their farms represent invested capital.

Many experts who assisted farmers in making up their income tax returns, are of the opinion that thrifty agriculturists actually will profit by it; because it has made them think in exact terms about their business and keep account of income and expenditures as applied to the details of farm management.

It is their belief that not one farmer in a thousand previously had attempted to calculate the net profits on his investment.

The farmer, at last, is face to face with a cost sheet, consideration of betterments, soil betterments, soil building, conversion of raw material of plant life into the finished product of fattened stock and utilization of waste. The schools are going to show his sons what a peculiarly interesting combination of applied chemistry and industrial organization agriculture is, and if economic conditions compel, as many expect the division of the land into small farms, intensive, scientific cultivation, probably specialization, only will be profitable. Here the school steps in with its scientific knowledge to save the day.

Probably another dozen high schools will be added during the present year to the list participating in the Federal fund.

Those sharing in the \$35,156.96 for teaching agriculture are the Livermore, Fordsville, Lowes, Campbellsville, Lewisburg, Dawson Springs, Benton, Whitesburg, Mayfield, Mayslick, Marion, Greenville, Franklin, Beaver Dam, Daviess county, Montgomery county, Breckenridge county, Cunningham, Cadiz, Utica, Auburn, LaCenter and Burlington.

Those sharing in the \$13,133.40 devoted to teaching home economics and trades and industry are Morgantown, Owensboro, Montgomery county, Louisville, Somerset, Hindman Settlement School, Paducah, Dawson Springs, Greenville and

Paris, home economics, and Somerset and Louisville trades and industries.

Little Rock and Madisonville Negro high schools teach agriculture and Mt. Sterling, Georgetown, Frankfort, Owensboro and Paris Negro high schools teach home economics under the Smith-Hughes act, which appropriates \$70,779.31 for vocational education and teacher training in Kentucky this year.

Each county puts up a dollar for dollar with the Federal government, while for teacher training in these vocational activities the State and Federal government put up \$16,866.71 each at the University of Kentucky and \$5,662.24 each at the Kentucky Normal and Industrial Institute (Negro.) So there is to

he spent in Kentucky for the current year \$141,558.62 as a start in teaching scientific agriculture, trades and home economics.

Under the plan adopted for Kentucky the Federal contribution goes entirely for salaries; not over 20 per cent of the fund must be spent on home economics and one-half of this must be used in part time classes for the benefit of persons who cannot attend daily sessions; from 20 to 60 per cent of the fund goes for teacher training in these branches of education, and the expenditures of supervision in trade training is limited to 25 per cent of the allotment for that purpose.

The fund increases each year and in a short time, if the schools meet the requirements, these practical features of a modern education will play an important part in the curriculum of the advanced schools in Kentucky.

The fund is administered by a board composed of State Superintendent V. O. Gilbert, Secretary of State James P. Lewis, Attorney General Charles H. Morris, President F. L. McVey, of the university;

### DEMOCRATIC MANLINESS

The Majority rule is democracy and Judge Carroll showed himself a trueblood when, as soon as it was conceded that Gov. Black had been given the democratic nomination for Governor, he had this message flashed to him congratulating him and pledging his support in the coming November election. It was manly, it was democratic. Judge Carroll knows what it is to do right and this example should be approved by every man that voted for him.

The following is Judge Carroll's message and Governor Black's response:

"My Dear Governor—

"In a fair election after a friendly contest, you have won the nomination. I congratulate you.

"You and the other nominees will have my hearty support in the November election. Yours very truly,

"JOHN D. CARROLL."

Gov. Black replied to Judge Carroll's letter immediately, in the following note:

"My Dear Judge:

"I am grateful to you for your very gracious letter of congratulation, and wish to thank you most sincerely for your proffered support, which I know will be heartily and earnestly given.

"I need hardly assure you of my friendship and esteem, which have not been marred or diminished by the campaign which is now ended. We were brother Democrats engaged in a friendly contest within the party ranks, and happily no bitterness has followed the end of the contest. You made a splendid campaign and conducted a gallant fight. You were supported by a host of zealous and loyal Democrats, and I feel certain that the men back of you will heartily join with you in making our triumph in the November election so complete that the Democrats throughout the nation will be proud of old Kentucky.

"Very sincerely yours,

"JAMES D. BLACK."

This response indicates what Governor Black would have done and what he would have expected his friends to have done had Judge Carroll been the winning candidate and is the expression of one loyal democrat to another.

The ticket is a good one from top to bottom and we shall expect an old time victory for the Democrats in the coming November election, and to that end we shall contend most earnestly.

### CITY OWNERSHIP

There are many reasons why cities should own their own plants. Some of these reasons confront us today.

Today we are notified of an ice famine in many surrounding towns and in some instances the reason is ice is being taken from home plants to supply others that may be short by reason of scarcity of water. Mt. Sterling citizens have been notified of another increase in price, thus making the price of ice almost 100 per cent more here today than it was several years ago. We realize the price should be increased but it appears to us 100 percent is a little heavy, and we feel it the duty of our City Fathers to take some steps to see if there is not a limit that can be charged by the local company.

The first duty of cities that own their plants is to supply home consumption and to keep the price within the reach of all. Another reason would be the dividends accruing would lessen the tax rate. Cities that own their plants have reduced tax rates. We know a city that owns and operates her water, gas, ice and electric plants that has a 25 cent tax rate. What city ownership is to that city could be to this city and others that would own and operate their plants. Paris has started a move of this character, why not Mt. Sterling?

of the people as expressed at the polls.

To those who did not get to the polls, by indifference or by reason of failure to register, or for any other reason they did not exercise their prerogative, are usually committed to support the nominees of the party with which they affiliate just the same as if they participated in the primary. To illustrate: A Democrat has set before him, according to law a primary, and it is his privilege and duty to participate in that primary. Now should a voter fail to exercise that duty he is none the less a Democrat, subject to the enactment created by him through his chosen representative, and is therefore morally committed to support the nominees. We are for the nominees of our party and are prepared to support the ticket most enthusiastically from top to bottom. If a voter has decided he will not abide by the decision of his party it is time for him to question his sincerity as to party affiliations in regard to political principles and then go where conscience may lead, and this he should have done prior to the primary.

The ticket nominated by the Democrats is a splendid one and we feel confident is one that will triumph over Republicanism at the polls in November.

### BUILD NOW!

Mr. W. B. Moore, of Yorkville, S. C., in a letter to the Manufacturers Record writes:

"Owing to the advances in building material and the scarcity of labor, causing delays in construction, notwithstanding that the capital had been subscribed for a new mill to be erected by the Walmore Thread mills to cost \$500,000, the project has been indefinitely postponed."

Building material is high as compared with some former prices and there is a scarcity of labor. But in our opinion, building material will grow more and more difficult to obtain as the shortage in labor will largely increase. We cannot see now there can be any decline in the price of labor or in the cost of building operations for some years to come, unless there should come upon us an industrial depression and a panic which would mean widespread and terrific disaster. We do not believe that this condition is possible, for nothing but a revolution or Bolshevistic outbreak could halt the advancing business prosperity of the country, and we have no fear of Bolshevism or revolution. Given ordinary stability of government, there will of necessity be an enormous expansion of business activities which will mean an increased

demand for labor and building materials. Build now!—Manufacturers Record.

Miss Susette Johnson was hostess to her card club Thursday night at her home on West Main street in compliment to Mrs. Mary Crawford Lloyd, one of the members, who has been in service overseas for the past year. Bridge was played until a late hour when most delicious refreshments of cream and cake were served. Mrs. Charles T. Hazelrigg made the highest score, and was given the prize, dainty handkerchiefs, which she presented to the guest of honor. Miss Johnson's guests were: Mrs. Lloyd, Miss Louise Lloyd, Miss Lizzie P. Coleman, Mrs. John Stoffer, Mrs. Percy D. Bryan, Mrs. Pierce Wian, Mrs. Mary Coleman Ayres, Mrs. Clayton Howell, Mrs. Anderson Bogie, Mrs. J. C. McNeal, Mrs. H. G. Hoffman, Mrs. W. P. Huntington, Mrs. John Speer, Mrs. A. G. Gates, of Indianapolis, Mrs. C. T. Hazelrigg, Miss Eliza Harris and Miss Allee Young.

### For Mrs. Lloyd.

Mrs. Mary Crawford Lloyd was guest of honor at a sewing party given on last Wednesday morning at the home of Mrs. Roger Drake, by the Junior Woman's Club, of which she is a member.

### Dinner Party

Mr. and Mrs. William Howell were hosts at a beautifully appointed dinner Thursday evening at their home on the Grassy Lick pike. After dinner, rook was played and Mr. and Mrs. Howell's guests were: Mr. and Mrs. Robert Howell, Mr. and Mrs. Charles Highland, Mr. and Mrs. Frank Boyd, Mr. and Mrs. Jesse P. Highland, Mr. and Mrs. Charles E. Duff, Mrs. Fred W. Bassett, and Miss Katherine Howell.

### Five Hundred Party

Mrs. Owings Lane was hostess at a five hundred party, Friday afternoon, at her home on the Owingsville pike, in compliment to her niece Miss Patty Thompson. The home was beautifully decorated with garden flowers, the colors white and yellow being used with artistic effect. At the conclusion of the games, most delicious refreshments were served. Mrs. Owings' hospitality included about forty of the younger girls.

### For Miss Clark

Misses Grace and Elizabeth Lockridge will entertain the Young Women's Missionary Society of the Presbyterian Church Thursday afternoon at their home "Maple Ridge" in honor of their house guest, Miss Ray Clark, of Oxford, Ohio.

### Dance

There will be a subscription dance at Ringo's Hall, Monday night, given in honor of the visitors in town. The music will be furnished by Williams Sextette of Winchester. George Hamilton and Irvin Wood, are the committee in charge of arrangements.

Mr. and Mrs. David C. Fox will be hosts at a dancing party, this evening, at their home in the country, in honor of Miss Mildred Gatewood, of this city, Miss Elizabeth Gay, of Lexington, and Miss Kathleen Gager, of Chattanooga.

## THE SICK

Mrs. N. H. Trimble who is at Petoskey, Mich., is very much improved. Mrs. Trimble will not return until about Sept. 10th.

Mrs. W. T. Fitzpatrick, Jr., was brought home from a hospital at Lexington Saturday and her many friends will be pleased to know that she is getting along splendidly.

## "On the job"

*Certain-teed* forms a complete, seamless surface that sheds rain, snow and sleet year after year with almost no attention. It is always "on the job."

The most severe weather makes no impression on *Certain-teed*—nor can sparks, fumes, gas, smoke or insects impair its protective strength.

Yet *Certain-teed* costs no more—less in fact than other types of roofs. It is easily and quickly laid by anyone who will follow the simple directions that come with the roll. Upkeep expense is too slight to consider.

Your buildings, old or new—large or small—in city or country—should have the protection of *Certain-teed*.

*Certain-teed* is made in rolls, both smooth and rough surfaced, (red or green) also in handsome red or green asphalt shingles for residences. *Certain-teed* is extra quality—the name means *certain* of quality and satisfaction guaranteed. It will pay you to get *Certain-teed*—most dealers sell it. Ask for *Certain-teed* and be sure to get it.

### OFF FOR THE CUMBERLAND

A camping party composed of Misses Mary Crail, Mary V. Robertson, Elizabeth McCoun, Eliza Lockhart and Miss Agnes Daugherty, of Ashland, Claude Killpatrick, Howell Hunt, Howell Reese, Stewart Sharp, and Edwin Murphy,

of Ashland, left Monday morning for a two weeks' outing at the Mt. Sterling Fishing Club Camp on the Cumberland River near Williamsburg, Ky. Mr. and Mrs. C. B. Paxton, of Ashland, will chaperone the party.

### ICE PRICES AGAIN BOOSTED

The Kentucky Utilities Co. has again raised the price of ice. The price has steadily increased for the past several months until it seems the time has come when the Mayor and Council should investigate the matter. In the past two years the price has increased nearly one hundred per cent, and it seems there should be a limit to the price they can charge. Paris now has a plan under way whereby local citizens may build and operate an ice plant of their own. We think it a good idea for Mt. Sterling to follow suit.

### SETH BOTTS RETURNS

Seth Botts, one of the first Mt. Sterling boys to enter the service, was discharged last week and returned to his home in this city. Mr. Botts is an extremely popular boy and is receiving a warm welcome from a host of friends and admirers.

### BUYS FINE SHEEP

Hughes Atkinson bought of Jesse R. Letton, of "Lettonia Stock Farm," three head of fine South-down sheep for \$100. Charles E. Duff purchased of the same party two head at \$35.00 each.

"Why I Put Up With Rats for Years", Writes N. Windsor, Farmer.

"Years ago I bought some rat poison, which nearly killed our fine watch dog. It so scared us that we suffered a long time with rats until my neighbors told me about RAT-SNAP. That's the sure rat killer and a safe one." Three sizes, 25c, 50c, \$1.00.

Sold and guaranteed by Chenault & Orear.

### TEACHING AND OTHER TEASERS

That school teachers are underpaid is an old story, grown tiresome from repetition. But here are some up-to-date facts, submitted by the National Association, which give the subject new freshness and interest. Teaching salaries have really been rising—they have risen, in the three years from 1915 to 1918, from an average stipend of \$543 to \$630. Let no tax-payer, however, plume himself unduly on this fact. The advance only meets about one-seventh of the current advance in living expenses, leaving the teacher far worse off than before.

The most striking thing in the report is a comparison of the teacher's pay with that of other occupations. The poorest-paid railroad worker, the section hand, gets twice as much as the average teacher. Skilled railroad men get five and six times as much. Most hod carriers get 50 to 100 per cent more than teachers. Bakers, carpenters, and glaziers get twice as much. Blacksmiths, machinists, lathers and wiremen get two and one-half times as much. Plumbers, bricklayers and structural iron workers get three times as much.

The ordinary shipyard worker is paid \$1,411 a year, to the teacher's \$630. And surely her work is no less important and difficult than his—she is shaping the material that goes to the making of that supreme product, the ship of state.

And yet, in every community in the land, there are still taxpayers who kick whenever anyone suggests raising the teacher's pay.—Ex.

Certainly there is no incentive for the training of men and women to the high and responsible calling of pedagogy. Let it be remembered that it is the school teachers more than all others that mold the characters and lay the basal structure for men and women that are worth while. They should have increased pay, not the promise, but an immediate enactment that would encourage higher and more extended education.

### KENTUCKY WILL HELP

Arrangements have been made by which Kentucky will have a prominent part in the Pure Food Show to be held at Cincinnati August 5th to 10th. This exposition will emphasize the great value of milk as food. This interests the milk producers of Northern Kentucky directly.

The Extension Home Demonstration Department of the College of Agriculture at Lexington will demonstrate for the housekeepers of Cincinnati the many dishes and drinks which can be prepared from milk. These demonstrations will be given twice each day during the entire two weeks of the show.

### MY HEAD!

When the head feels thick or aches, when one feels all out-of-sorts—perhaps a coated tongue—it is the signal that poisons are accumulating in the system, and should be cleaned out at once.

Auto-intoxication can be best ascribed to our own neglect or carelessness. When the organs fail in the discharge of their duties, the putrefactive germs set in and generate toxins—actual poisons, which fill one's own body.

Sleepiness after meals, flushing of the face, extreme lassitude, biliousness, dizziness, sick headache, acidity of the stomach, heartburn, offensive breath, anemia, loss of weight and muscular power, decrease of vitality or lowering of resistance to infectious diseases, disturbance of the eye, dyspepsia, indigestion, gastritis, many forms of catarrh, asthma, ear affections and allied ailments result from auto-intoxication or self-poisoning.

Take castor oil, or procure at the drug store, a pleasant vegetable laxative, called Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes and jalap.

JONES: Have any rain last night, Smith?

SMITH: Yes, a hard one, and with Hail; nearly ruined by tobacco. Cut it all to pieces.

JONES: Have it insured?

SMITH: No, not a cent on it and I'm afraid 'twill darn near put me out of business, too.

JONES: Well, you're certainly a "wise guy." Didn't you know you could have insured it against Hail for \$50 an acre for only \$4.00; or \$100 an acre for only \$7.00?

SMITH: Yes, I knew that BUT I DIDN'T THINK IT WOULD GET ME; in fact, I had forgotten it. Think I'll go in right now and "TALK WITH HOFFMAN" and insure the crop on the other farm. They say "Lightning doesn't strike in the same place twice," but I can't afford to take any more chances.

#### PRESIDENT INVESTIGATING HIGH COST OF LIVING

First steps in the Federal Government's attempt to reduce the high cost of living were taken last week with the inauguration of a plan for the sale of \$125,000,000 worth of army food stocks direct to the people with every postmaster and mail carrier over the country acting as salesman.

Distribution of the surplus food in this manner was requested by the House of Representatives and details were worked out at conference between Secretary Baker, Postmaster General Burleson and Representative Kelly, of Pennsylvania, author of the House Resolution.

While this programme was being put into effect, President Wilson had before him a statement from the Brotherhood of Locomotive Engineers which declared that "conscienceless profiteering by the great interests who have secured control of all the necessities of life" had brought about such conditions that the engineers felt they must demand increased wages unless living expenses speedily were reduced.

At the Department of Justice, investigations into causes of increased living costs were under way with particular attention being given to the question of whether producers or dealers had combined in violation of law to raise prices of necessities.

Meantime there was pending in the House a resolution proposing that the Federal Trade Commission investigate rising costs of coffee, sugar, shoes and clothing.

War Department officials were preparing a price list covering the entire available surplus army food.

The list will be sent to each of the 54,000 postmasters throughout the country as well as to all rural mail carriers who will inform consumers of the prices and methods of sale and also take orders. Payment must be made at the time the order is taken for which a receipt will be given in order that the purchase may be re-imbursed in event the order cannot be filled through exhaustion of the supply or for any other reason. The army food, which will be available at much lower prices than those prevailing in the retail trade, consists chiefly of canned vegetables, corned beef, bacon, hashed corned beef, roast beef and fresh frozen meats and poultry.

The brotherhoods whose members are remunerated for labors with increased pay, may have cause for complaint and this we do not doubt, and admitting this, may we ask, how much greater have the great masses, those who live on meager incomes, either from small investments or from manual labor rendered, by the old and also the indisposed dependents, have cause to complain?

Mr. Vaughn, Farmer, Tells How He Lost All His Prize Seed Corn.

"Sometime ago sent away for some pedigreed seed corn. Put it in a gunney sack and hung it on a rope suspended from roof. Rats got it all—how bents me, but they did because I got 5 dend whoppers in the morning after trying RAT-SNAP." Three sizes, 25c, 50c, \$1.00.

Sold and guaranteed by Chenault & Orear.

#### POOLS BOOST PRICES

Kentucky farmers in twenty counties pooled 332,000 pounds of wool. This sold at an average of 62½ cents per pound for clear wool while the price paid the individual farmer by the regular buyer was 50 cents. Three hundred and thirty-two thousand pounds at 12½ cents advance means that the farmers who pooled made \$41,500 clear money.

#### WIRES GO BACK TO OWNERS

The Government control of the telegraph and telephone systems has ended and the properties have been turned over to their private owners. An order to this effect was issued last week by Postmaster General Burleson in accordance with the resolution adopted by Congress and signed by President Wilson. Possibility of a rate war between the telegraph companies with the return

of the properties is seen in the recent statement of Clarence H. Mackay, President of the Postal Company, that his company could reduce rates 20 per cent and still earn sufficient revenue. To meet increased wages of employees, telegraph rates were increased about 20 per cent last March.
